

Have you been the victim of dental negligence?

Dentists, like other medical professionals, owe a duty of care to their patients.

While the standard of dentistry in the UK is generally very high, there are occasions when things go wrong. Unfortunately, once teeth are damaged or incorrectly removed they can never be replaced.

97% of our clients would recommend Geoffrey Leaver to their friends

If you feel you've suffered at the hands of a dentist who has not been properly trained or carried out sub-standard treatment, you could be entitled to compensation.

Typical problems suffered may include:

- ✓ Failed or incorrect diagnosis, causing prolonged problems, incorrect treatment and pain
- ✓ Careless or inadequate treatment causing personal injury
- ✓ Drug administration problems, for example incorrect dosage or wrong drug usage leading to an allergic reaction
- ✓ Swallowed instruments or swabs dropped down patients throats

Our solicitors understand that anyone who has been the victim of botched dentistry is likely to have suffered both physical injury and mental trauma. We are experienced in handling a variety of dental negligence claims and will treat your case sympathetically to help you get the compensation and justice you deserve.
